Dear Harold -

Hope you are well. I've been meaning to send this to you since August. It's an article on Vincent Bugliosi who seems to be as obsessed with Oswald being guilty as David Belin. Odd, considering Bugliosi was pro-conspiracy in the RFK assassination.

I recently read Jim Garrison's new book and saw an interesting PBS documentary on Mort Sahl where he talks about the assassination, the effect on his career and the secret CIA government of the U.S. If they run it in your area you should take a look. Did you ever get a look at those frames from the Zapruder film that you used to see?

Take care.

Best

Robert
